JAC Recruitment
Tokyo Stock Exchange (Prime Market) TSE 2124

JAC Recruitment selected FTSE Blossom Japan Sector Relative Index

JAC Recruitment Co., Ltd (TSE:2124), a leading global recruitment consultancy with operations in 11 countries, selected FTSE Blossom Japan Sector Relative Index for the first time. The FTSE Blossom Japan Sector Relative Index has been selected as one of the indices for ESG investment by the Pension Fund Investment Fund (GPIF), the world's largest institutional investor.

FTSE Blossom Japan Sector Relative Index

The FTSE Blossom Japan Sector Relative Index is designed as a sector neutral benchmark that reflects the performance of companies demonstrating strong Environmental, Social and Governance (ESG) practices in Japan. The index selects companies with higher ESG Ratings within the top 50% of each sector and supports climate transition to a low carbon economy by evaluating companies' climate governance and climate change efforts via the Transition Pathway Initiative's Management Quality Score.

Further information can be found online at the [FTSE Blossom Japan Index series page](#).

JAC's basic approach to sustainability is to "contribute to the realisation of a sustainable society by connecting people and companies and continuing to contribute to their growth", and will continue to contribute to solving social issues through its business.
